Color goods, which usually fade when washed, will not lose color if washed in bran water. It is excellent as a scalp cleanser, and is good for the

hair, making it glossy.
Used instead of soap, it whitens and softens the hands. To prepare bran water, fill a small bag—an ordinary salt bag is excellent for this purpose—with bran, place it in a pall, cover with boiling water, and it

Care of the complexion is one of the things that all women should be interested in. The comfort of a nice, soft, clean skin counts for much, to say nothing of the appearance of a woman who has not a good skin and makes it worse by indifference to it.

When an oily lotion that agrees with the skin is secured it should be wiped into the face, rubbed around the throat and behind the ears as soon as one comes indoors. If this is wiped off immediately afterward with a soft old bit, of linen it will bring all impurities that water would not dislodge. Then the face may be bathed with warm, not hot, water, and thoroly dried on a very soft towel. It is impossible to give too much attention to removing all moisture, else the skin is likely to

Then a lotion that modifies any ac tion of low temperature must be put on. One that is extremely simple and very good is made of half an ounce of powdered borax, an ounce of pure glycerine and a quart of camphor water. This should be a substitute for plain water for cleansing; it is inexpensive and refining in effect. A woman whose face is not exceedingly dry will find this liquid highly beneficial without a previous application of cream, and she may apply it any number of times thru the day, and at night before going to

that an acid whitener may be put on without injuring the flesh, apply a sim-ple bleach made from two tablespoonfuls of fresh lemon juice, a pint of rose water and a drop or so of attar of roses. Like the other lotion, it is a substitute for water, and will remove grease. Either of these can be used at night as well as thru the day.

Rather an odd fact that few women realize in connection with treating the complexion is that in addition to the care of the face the throat and upper part of the neck must be greased and massaged, for unless they receive the same kind of treatment the quality of the skin will be entirely different. Therefore, if water is to be abandoned or subordinated to softening lotions water has relaxed the tense, tired musthat are cleansing, the whole surface cles somewhat, dash cold water, with must be gone over.

soon spoils even a pretty face.

It improves the appearance and makes one popular.
There is nothing to be glum over, and,
if there is, being glum will not help it.
Be happy and bright and every one will

wish to help you.

The girl who wants to be beautiful must sleep with fresh air, plenty of it. in her room. She must go out and revel in the sunshine. She must find plenty of laughter in her daily life. That is the only true way to live, and the only way capable of bringing beauty.

Cultivate a sense of proportion in dressing. Do not put all your little sum into a gorgeous and expensive hat, and then have to content yourself with a cheap suit. The hat will look out of place and the suit hopeless.

The very stout, girl should not wear the exaggerated high collar which enjoys so much vogue. She will feel uncomfortable and will look uncomfort-

oatmeal good; eight hours makes it better; 24 hours makes it best.

Coffee and fruit stains are easily removed if, as soon as they are made, the solled article is held tightly over "ripen" and become mellow.

Dedication of the Pennsylvania Monu-

Malden Valentine, 12th Pa. Cav., Altoona, Pa., was not wholly pleased with the dedication of the Pennsylvania State Monument in the National Cemetery at Winchester, Va., Sept. 19. The railroads, except the Cumberland Valley, refused to make any concession in fares, and consequently the number in attendance was smaller than expected. Many of the comrades criticised the monument as being not up to what they

BATTLEGROUND.

Fierce, Hard Work on All Sides.

NEW YORK A

holds the key to the Presidential electhousands of even the most distressing tion. That is why the forces are clashing so powerfully here and why this week and next week, right up to election day, will find the managers matching brain power in strategy and tacties, showing no quarter, fighting from both parties, probably a little more ambush or in the open. Of course, it ambush or in the open. Of course, it is not entirely true that New York is the key, for the signs are stronger of a Western landslide than of an Eastern landslide, and if there should come a Western landslide it might swing enough votes to Bryan to elect him. But in so far as New York holds the key the outcome depends upon a re-duction of the great Republican ma-jorities up State to a point where New the great kinney,
edy, will do for you, every ream.

York City can the reduction of majorities in them every hour with the borax water. Rinse them in pure water and hang up for the night. Next day cover with lemon juice and salt made into a paste, and leave them again in the sun water. has been much hardship and suffering among the employes,

The Up-State Majorities

A tour across the State in the last few days shows that the Republicans of the New York Zoological Park, is year, and when one comes to think President, was founded in 1904, and about it even 180,000 is not an invinciabout it even 180,000 is not an invinci-ble figure, if the laboring masses of New York City are going to follow Gompers and oppose Taft. There have been larger Republican majorities than that above the Harlem several times, which indicates that Taft, even if he carries New York and gets its electoral vote, is not expected to make any phenomenal run. The figure of 180,000 above the Harlem, which is the figure to which Vice Presidential Can-didate Sherman subscribes, does not demonstrate any great Republican con-fidence, provided New York City should

fidence, provided New York City should turn out a great big Bryan vote.
But there is the industrial vote, and the battle of this week and next week is going to be chiefly ever that. The Republican orators and leaders have been filling the minds of the laboring classes full of the argument that Bryan's incoming would mean dire dispater industrially, that a revision of aster industrially, that a revision of the tariff by a Democratic Congress would mean depression and trouble for many of the industries in which these workers are engaged. For some of these New York State industries are among the "infant industries" that have been built up under the high schedules of the Dingley law. As the employes have been having a hard time of it for the last year or so, they are penty of sawdust, and on this set a tinpail or can that is eight inches in diameter and high enough to take in a
quart bottle of milk. The pail must
rest on sawdust, and not on the bottom
of the box.

SCIENCE NOTES.

of it for the last year or so, they are
very timorous about any talk of an
Administration at Washington that
would make the future any more
gloomy. There is also a very large
population in up-State cities of railroad
men, both those who work upon the
railroads and run the trains and those
who are employed in large railroad
shops.

The Railroad Vote.

This railroad vote has been given very special attention by the railroad officials, speaking simply as "private citizens" on civic occasions. As an citizens' example, Vice President W. C. Brown, of the New York Central lifes, has been addressing audiences of railroad men, "after his election the great rolling mills and factories will be running to their full capacity, and employment will seek labor, instead of labor walk-ing the streets looking in vain for em-

ployment. This kind of advice has set the railroad men to thinking more than ever, and the Republicans think that vote undeveloped knee-joint of another patient.

Because of the lichens which grow abundantly on the stone-paved streets in Madeira making them slippery, its and how much may be at stake for him in what the industrial vote in the up-State region as well as in New York decides to do.

For that reason he is not only planning a tour into New York at an early day, but he surprised all the politicians here a few days ago by arranging to go right into the heart of the up-State industrial country and speak at Syra-cuse on Thursday night of next week, the same night that Taft is going to be there. Mr. Bryan intends to make a brilliant dash, to storm the very cita-del of Republican representations against his administration, should he be elected, and to do this by a spec-tacular movement of Rooseveltian bold-ness when Mr. Taft is himself in town. The most complicated watch ever made, the work of Louis Leroy, gives 25 different indications. It has two dials, and the mechanism, in four layers, contains 975 different pieces.

A poison having the peculiarity of being fatal only to the rat tribe has been discovered in the English seaben discovered in the English seaonion or squill. Testing its efficiency, a German investigator ground some seanonions with potatoes, and fried the

Coming of the Candidates. All the country up that way is tingling from rim to center in expectation of the coming of the candidates. I will be a gala night, and it is estimate that 100,000 people will be in Syracuse to see the honorable candidates, and also, if possible, to hear them. There Mr. Bryan will speak his final word in the East, making a hurry trip on to Ohio for the following day's campaign. He and Mr. Taft have been seek that for the very lest word in Ohio. fighting for the very last word in Ohio so uncertain does the result appear to be in that State. Undoubtedly the Bryan doctrines have taken firmer root in the West than in the East, from all one can judge as he travels to and fro in both sections, and it also seems that as the campaign draws to a close the Republicans are finding it harder to down Bryan in Ohio than in almost any other of the large Northern Common-

One of the most capable of up-State editors, an independent, who is sup-porting Hughes for re-election as Gov ernor and who has good opportunities for gauging sentiment, said: "The result in New York is in doubt. Make no mistake about it. I do not say Bryan is going to carry it, but Taft is not safely assured of New York's 39 electrons of the very toughest cases on record—chronics of 30 and 40 years suffering—after doctors, baths and medicines has toral votes.'

There will almost certainly be very utterly failed. transportation during the Winter months in many parts of Alaska is by dog team.

Of the University of Montana, after he had carefully examined several parts of the country. It lies directly north of the Jocko River, near the towns of Ravaill and Jocko. That is the tendency of all reports from every quarter. All along the line of New York State cities it is the same seems to have been ground out by the Socialists, who are expected to show a very large vote, which will come from

Republicans. Investigations in a number of States indicate that whereas Hearst has been fighting Bryan with all the ingenuity there is in him and hoping indirectly to be a strong ally of Taft and the Republicans, he has not done much in turning votes. He has caused no little annoyance to both parties. But it is claimed that he has overreached himself, and that he has denounced Bryan too vehemently to be credited. Whether he has played himself out as a po-litical factor, or whether he will find some new vantage point by the time the next campaign rolls around, is interesting the politicians immensely

"Uncle Sam's" View. (By Hyland C. Kirk, Historian, Second

Corps.) Well, Uncle Sam," the scribe began, "In this election, who's your man?

There's Bryan, who has kept the pace These many years; and in this race, If he is ever going to win, 'Twould seem you ought to let him in

Shrugged his shoulders just a peg, And passed his hand up thru his hair: "You're sympathetic, I declare! But, tell me, boy, perhaps you can, What should count in the winning

'The fact he's run three times, or four, Looks well, talks much, and then some

Frains with all parties, claims all rights, Because of his two former fights—
Should these things count?" And then
he laughed. "The man the country needs is Taft!"

"But, Uncle, wouldn't Bryan do?" The old man grinned: "It might be true, He's do us all! Now, see here, lad, I'm glad ye called, I'm really glad. The country's gettin' sick of graft, And that's one reason I want Taft!

"Besides," said he, "I want a man Who's not a rabid partisan— Who sees great things for this fair land With will to make it far more grand-And he can do it, or I'm daft; Yes, I've tried him, and I say—Taft!"

"But, Uncle, Bryan wants a show!"
"Yes, others do," said he; "I know
Large numbers unemployed, and who
Need some strong hand to pull 'em
thru—

Some strategic, farreaching plan: And Taft can do it, Taft's the man!

"Make no mistake, my boy," said he, "The country is the thing, you see-It's what we need, not s' liply one, And I judge Taft by what he's done, With power to do far more, I say; I'm really glad you called. Good day!"

Willard Y. Gross, 10th Mass. Battery, Brookline, Mass., says that Gen. Bar-low, of Gettysburg fame, is buried in the cemetery in that city, and over his grave is a bronze tablet bearing the following inscription:

"Francis Channing Barlow; Born Oct. 19, 1834; Died Jan. 11, 1896. Enrolled as a Private Soldier April 19, 1861; Appointed Major-General, United States Volunteers, May 26, 1865."

The 35th U. S. C. T.

Editor National Tribune: Please give a short history of the 35th U. S. C. T. I should be pleased to correspond with any comrade of Co. K. of which I was Bennett St., Greensboro, N. C.

This regiment was organized at Newbern, N. C., June 30, 1863, for three years as the 1st N. C. Its designation was changed to the 35th U. S. C. T. Feb. 8, 1864, and was mustered out June 1, 1866. It was commanded by Col. James C. Beecher, who was promoted to Brigadier-General March 13. 1865. It took part in the battles of Olustee, where Lieut.-Col. Wm. N. Reed was mortally wounded and Capt. Chas. A. Jones killed, Black Creek and Honey Hill.-Editor National Tribune,

ment, which is curing

Last Chance--Only 100 Copies Left. Alphabetical List of Battles

From the Official Records-From 1754 to 1900, With Dates

The date of any one of the 8,220 battles, skirmishes, and other ncidents of the War of the Rebellion, or of any one of the 1.251 engagements of the Spanish-American War and Philippine Insurrection can be referred to as easily as to a word in the dictionary. All of the battles of the Old Wars are arranged in the same manner, with a brief sketch of each engagement, including the losses.

The Sons and Daughters of the American Revolution will find many things of interest, as the battles of the Revolution are full and

It has been adopted as authority by the United States Pension Bureau, and there are 1,500 copies in use in that office. It gives the number killed and wounded in each engagement dur-

ing the Spanish-American War, Philippine Insurrection, and the Disturbance in China. The principal events of the Rebellion, Spanish-American War, Philippine Insurrection and the Disturbance in China are recorded

chronologically as they occurred from day to day. This alone is worth the price of the book. As a book of reference it has no equal. Teachers, reporters and authors speak in highest terms of the work.

It will be found a ready reference to settle disputes as to date of battles and other incidents; and by marking the various engage ments in which comrades took part, they will leave a record that their

children and grandchildren will be proud to exhibit. The book will enable comrades to retrace, in memory, the long marches and engagements in which they participated from Fort Sumter to Appomattox, and from Cuba to the Philippines.

The data from which this book was complied are principally from official records, requiring a careful search of nearly 100 volumes of the Rebellion Records and the reports of the various Departments for

The book is neatly bound in cloth, and contains 252 pages, well indexed. If after examination you are pleased with the book, show it to

your comrades. If not, return it and get your money. Sent postpaid. Price \$1.00 per copy. Address, THE NATIONAL TRIBUNE,
